PROFESSIONAL EXPERIENCE

Junior Software Engineer *Mintifi, Mumbai* **June 2025 – Present**

- **Customer App**
  - Built 10+ reusable React components for onboarding and loan-management workflows; improved dashboard load time by 30% using memoization, code-splitting, and lazy loading.
  - Built 4 configurable loan-offer modules with dynamic eligibility logic, allowing lending criteria to be changed without code changes, for 50K+ customers.
  - Integrated Paytm and PayU into repayment flows for secure payment processing across 50K+ active customers.
- **Template Manager App**
  - Built a contract-management platform used by 7+ teams to process 100+ documents per month, replacing a manual document workflow.
  - Developed a document editor supporting tables, embedded media, dynamic variables, threaded comments, and version history.
- **AHS App**
  - Built a General & Life Insurance module for in-journey sales across loan products, including premium capture and LMS charge integration.
  - Migrated legacy Customer 360 management to a structured system with activation/deactivation controls and RBAC.
  - Added QR-based invoice scanning and dual-factor authentication using Security Q&A and TOTP, reducing manual data-entry errors by ∼40%.

PROJECTS

Imagify — AI-Powered SaaS Application *MERN, JWT, Razorpay, Framer Motion, GSAP*

- Built a full-stack MERN application with JWT authentication and an RBAC-based admin dashboard for usage analytics and log management.
- Integrated Razorpay for credit purchases, including order creation, payment verification, and webhook confirmation, with a responsive animated interface.
