PROFESSIONAL SUMMARY

Frontend Engineer with experience building fintech applications using React, Next.js, and TypeScript. Delivered onboarding, authentication, loan-management, and transaction-processing features for systems serving 100K+ users.

KEY ACHIEVEMENTS

- Built fintech applications serving 100K+ active users.
- Implemented secure authentication workflows using TOTP and RBAC.
- Reduced dashboard page-load time by 30% through React performance optimizations.

TECHNICAL SKILLS

- **Frontend:** React.js (v18/19), Next.js, TypeScript, JavaScript (ES6+), React Native, Tailwind CSS
- **State Management & Data Fetching:** TanStack Query, Redux Toolkit, REST APIs
- **Authentication & Security:** JWT, TOTP, Role-Based Access Control (RBAC), Session Management
- **Testing:** Jest, React Testing Library, Unit Testing
- **Development Practices:** Agile, Scrum, Code Reviews, Cross-functional Collaboration
- **UI/UX:** Framer Motion, GSAP, TipTap, Responsive Design, Figma
- **Tools:** Git, Postman, MySQL, MongoDB

PROFESSIONAL EXPERIENCE

Junior Software Engineer

Mintifi, Mumbai

June 2025 – Present

- **Customer App**
 - Shipped 10+ reusable React components powering customer onboarding and loan management workflows. Reduced dashboard load time by 30% through component memoization, code-splitting, lazy loading, and performance optimizations while maintaining test coverage using Jest and React Testing Library.
 - Engineered 4 finance-configurable loan-offer modules with dynamic eligibility logic, delivering personalized product recommendations to 1,00,000+ active customers and enabling the business to test new lending criteria without engineering involvement.
- **Template Manager App**
 - Delivered a greenfield contract-management platform from zero, now adopted by 7+ business teams processing 100+ financial documents per month — replacing a fully manual, error-prone preparation workflow.
 - Developed a feature-rich document editor with tables, embedded media, dynamic variables, threaded comments, and version restoration; enabling enterprise-scale document management workflows across 7+ business teams.
- **Transaction App**
 - Integrated QR-based invoice scanning via Invoice APIs, automating data extraction for DDR and deferred-payment workflows — reducing manual data-entry errors by ~40% across the transaction ledger.
 - Shipped a dual-factor authentication module supporting both security Q&A and TOTP (time-based OTP), hardening access security for transaction-level operations while giving users choice in their preferred second-factor method.

PROJECTS

[Imagify](#) — AI Powered SaaS Application

MERN Stack, JWT, Framer Motion, GSAP

- Deployed a full-stack MERN application with JWT-authenticated sessions, an RBAC admin dashboard for usage analytics and log management, and fluid cross-view port animations — demonstrating the same production-grade patterns used in fin-tech work.
- Delivered responsive layouts and fluid UI animations using Framer Motion and GSAP across mobile and desktop view ports.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology

Bankura Unnayani Institute of Engineering, Bankura, West Bengal

Aug 2022 – Jun 2025

CGPA - 8.29/10

COMPETITIVE PROGRAMMING

- **LeetCode** (<https://leetcode.com/u/RahulScripted/>) — Problems Solved: 388 | Rating: 1709 | Highest: 1712
- **CodeChef** (https://www.codechef.com/users/explosion_king) — 3-Star | Highest Rating: 1689 | Division 2
